610 EB

Border Disc with Hydraulic Blocker

**RUGGEDLY BUILT
FOR LONGER LIFE**

The model 610 EB Border Disc with Hydraulic Blocker is designed for today's demanding farming operations. The border discs hydraulically controlled blocker allows the operator to place blocks along the border to divert the waters flow, and allow better field coverage.

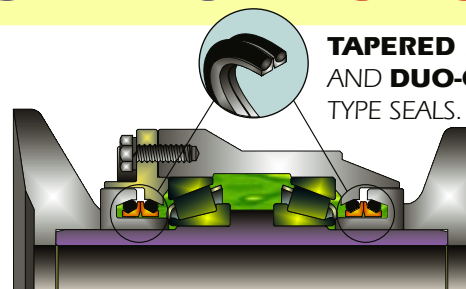

Standard Features:

- Frame ruggedly built with 7.1/8" x 7.1/8" x 3/8" square tubing.
- Equipped with TATU oil bath bearing assemblies with Tapered roller bearings and Duo-Cone seals.
- Replaceable HD bearing wear plates.
- Combined three point hitch category two and three.
- Heat treated boron steel disc blades.
- 1.5/8" (41.3mm) round heat treated steel gang axles.
- Tapered disc blades, 22", 24", 26", notched or smooth.
- Hydraulic cylinder with hoses.
